**Subject:** UBER

I believe UBER is one of the greatest things which has happened recently. I love how convenient it is, and how truly safe I feel. I think giving this up would be a mistake

Charleston VISITORS LOVE UBER - it's easy to use and safe.

Being an UBER driver allows me to provide safe, clean, and affordable transportation to countless visitors to our great city. All my riders enjoy my service and they see me as an ambassador to Charleston. a role that I am proud to fulfill.

CHARLESTON NEEDS TO KEEP UBER

UBER helps Charleston move!

I've been driving for 2 weeks and have gotten nothing but positive feedback from all my riders. Especially from young women who don't have to wait long periods of time or spend extra money for cab service. I provide them with a safe and affordable way to arrive at their destinations. I know their father's would approve.

**Subject:** Uber in SC

As a longtime resident of the city of Greenville who has had extensive experience using our taxi system for many, many years prior to the arrival of Uber, I must say I am severely disheartened by this ruling. Yes, Uber has some critical issues that need to be resolved, but our taxi system is pathetic. Actually, "pathetic" is giving them too much credit. The words abysmal, nonexistent, horrific, and flat out lousy come to mind to describe them and the level of service they provide.

Here are the problems with calling for a taxi in the city of Greenville (in decreasing order of importance):

- You cannot have confidence they will ever show up, despite repeated callings. This doesn't happen every time, but it is a crapshoot; and that is ridiculous.
- If they do show up, you will have waited 40-60 minutes (on average) for them to arrive.
- The vehicle will more than likely smell bad & be filthy.
- The driver will most likely not be a pleasant person or have any desire to engage in conversation and certainly not be "an ambassador for the City", as I have heard mentioned by City Officials as the reasoning for not wanting competing "taxi" services.

Here are my experiences with Uber in Greenville:

- Cars have always arrived after a ride was requested.
- Cars have arrived anywhere from 3-15 minutes after I "called" for them.
- Cars have always been clean.
- Drivers have always been pleasant folks interested in engaging in conversation.
- Rides have been more affordable than the taxi option.

Let's wipe away all of the politics and the entrenched nature of the existing taxi services and their lobbying capabilities, and recognize that at the end of the day citizens of SC need reliable, safe, consistent, affordable driving service options. This Uber issue is about competition (which, as capitalists, we openly embrace in most business segments...but for some reason not here), technology, and adapting

to market needs. Uber is the taxi service of the future. Please don't stand in its way in order to continue to enable an antiquated business model that does not serve it's customers well and deserves to become a relic of the past if it cannot adapt.

Sincerely,  
Joe Crowther  
Greenville, SC

To whom it may concern,

Other than to keep all the power with the cab companies who have the ability to charge drunk people \$20 for a two block ride in downtown charleston, why is there a force to push Uber out of the city? It's capitalism and they are working for the people of this community!

Please advise,

A concerned citizen
